Dave,

It's been a great pleasure knowing you this year. Here's wishing the best of luck to a very swell guy.

Wayne

David, you are a stange person
and I like to think you
can't be a fool. Do you
know?

David,
The best always to
a pretty good guy. We
haven't had any classes
together this year, but
I have still enjoyed
seeing you as much as
I have. Have fun this
summer & stay sweet!

Always,

David
I have had a real
good time with you
this year. Still stay

I have really had
a ball with you the
last several years. We
have had many good times
football, track, fun in
the air, etc. Next
year, work hard get
ahead; work ahead and
get a hard.

P.S. RAISE HELL

Dear Dave,

Keep a cool radiator, man.

Don't spin your wheels this summer.
Drive safely, the life you save may
vote Democratic. Take a brake every
once in a while and come see me.

always,

"DeBo"

Sincerely, I think I shall
remember you longer than
anyone I have known in
high school. I respect your
opinion, see you more, trust
you more, and like you more
than anyone I know.

Your friend

Garry

Have fun this
summer.

David,
I've enjoyed you
being in your class

Men, am I glad
you won!! Behind

David,

June 5, 63

I've enjoyed knowing you this
year & watching you on that
track. I'll forgive you even
though you wouldn't let me
drive your car.

Good luck
Kathy Parker

Dear David,

I have never enjoyed going with anyone as much as I have you. Even though I am not in football or track, I feel that I am a part of them because you were out there playing or running. Next year, you will be one of the best football players in North Carolina. I want to be the first to congratulate you on all the touchdowns you will make and the first to congratulate the best 880-man Enka ever had or will have.

There are so many things to write about when I think back on all the things we have done, but I will try to mention the ones that have meant the most to me: One of our first dates was to the athletic Banquet. Do you remember when I just about didn't make it back? That was the first time I rode in your brother-in-law's car. When I think of the dirty truck you played on me on my birthday I still get mad, but you'd be surprised at the fun I got out of reading Bullmoose. Do you remember our little shopping spree? I'm afraid if I had to press all your clothes you would look kind of sloppy. You are one of the smartest boys at Enka even though you don't try in English.

I hope you have a good time this summer. I guess it would be impossible for you not to have a ball. I will ~~keep~~ keep an eye on your car when you're gone (Ha! Ha!) (I can just see myself driving it. I couldn't even get it started.)

all the luck in the world,
I love you,
Linda

David,
I can truly say that I have
enjoyed this year with you.
You have helped to make
it one of the most interesting
yet. Best wishes to a swell
pal.

IN MEMORIAM

Ask not for whom the bell tolls;
it tolls for thee....

MRS. ELAINE MORREL

I count this thing to be grandly true,
That a noble deed is a step toward God
Lifting the soul from the common sod
To a purer air and a broader view.

We rise by things that are 'neath our feet;
By what we have mastered of good and gain;
By the pride deposed and the passion slain,
And the vanquished ills that we hourly meet.

Heaven is not reached at a single bound:
But we build the ladder by which we rise
From the lowly earth to the vaulted skies,
And we mount to its summit round by round.

COUNTY ADMINISTRATION

The District 5 Enka High School Committee is composed of: (seated, l-r) Phil McKinney, secretary; Tom Mallonee, Chairman; W. H. Stevens; (standing) Tom Tweed, Vice-Chairman; H. M. Tomberlin, Principal; Jack London.

Superintendent of County Schools

R. A. Tomberlin

The County School Committee is composed of: (seated) J. J. Northcott, Chairman; J. M. Cauble; Mrs. Ben W. Davis; C. H. Roberts; (standing) T. C. Roberson, Superintendent; Charles C. Bell, Vice-Chairman; Lawrence C. Stoker, Attorney.

The teaching profession occupies a position of public trust involving not only the individual teacher's personal conduct, but also the interaction of the school and the community. Education is most effective when these many relationships operate in a friendly, cooperative, and constructive manner.

PRINCIPAL

For eight years Mr. H. M. Tomberlin has given completely of himself in the interest of a better Enka High School. An understanding insight into the problems of faculty and students alike has earned their admiration and appreciation. This year Enka High is especially grateful to him for his help in organizing the community to foster the erection of this new concrete stadium seen in the background. This spirit of interest and of loyalty which he has displayed will be even more important in the future if Enka High School is to maintain its high standing.

The primary obligation of the teaching profession is to guide children, youth, and adults in the pursuit of knowledge and skills, to prepare them in the way of democracy, and to help them to become happy, useful, self-supporting citizens. The ultimate strength of the nation lies in the social responsibility, economic competence, and moral strength of the individual American.

ENGLISH

The ability to communicate effectively in the modern world is a major problem. The English Department of Enka High School seeks to help each student develop the art of communication in oral and written form. Knowledge is of little value unless one is able to clearly impart it to another. Study of grammar, speech, vocabulary, and composition are all important in making English a useful tool for the future. The student is introduced to good literature, especially the writings of great English and American authors. It is hoped that he will develop an appreciation for this vast heritage from the past and that by the study of great literature, he will be helped to formulate and express his own ideas.

Lynn, Polk, Deanna, and Ronald don the garb of olden times to dramatize Chaucer's Canterbury Tales.

Terry, Becky, Martha, and Kitty try to decide which book they want to read for their English book reports.

Miss Inman tells her English class of Julius Caesar's World.

Mr. Starnes' public speaking class rehearse for their chapel program.

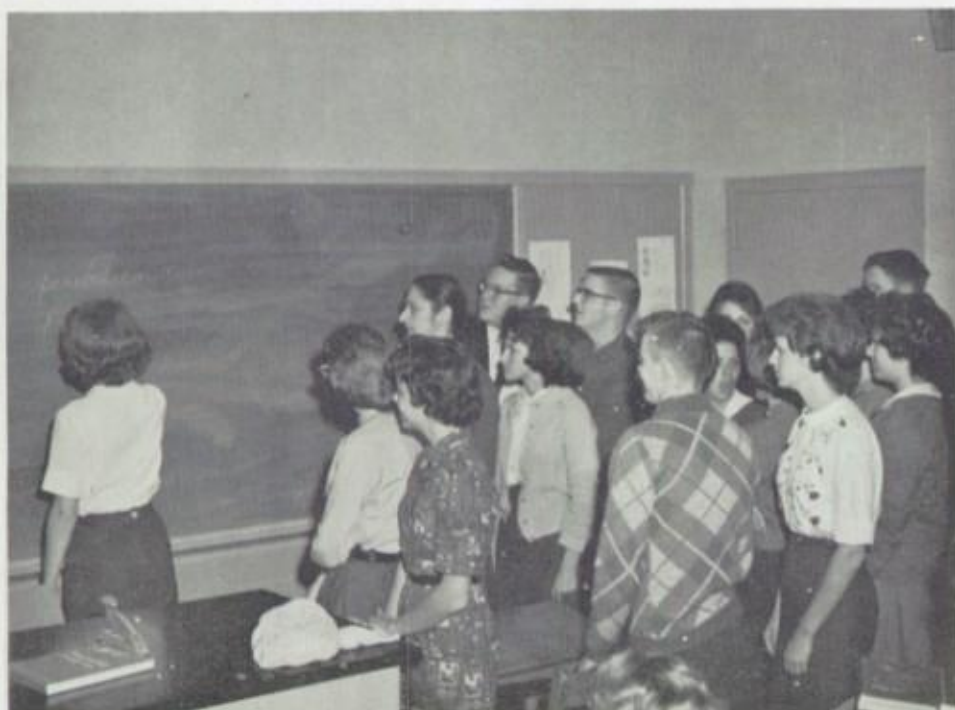

LANGUAGES

Susan Brown exhibits her project, one of many that the Latin classes have made on phases of Roman life.

The study of foreign languages helps to promote a healthy relationship between members of various nationalities. It develops appreciation and understanding in students for cultures other than their own. Because of modern means of communications and transportation, the need of a workable knowledge of other languages is increasing. This year, in addition to Latin and Spanish, French is included in the curriculum of Enka High School.

Leslie Smith reads her French composition to Mrs. Howle's French students.

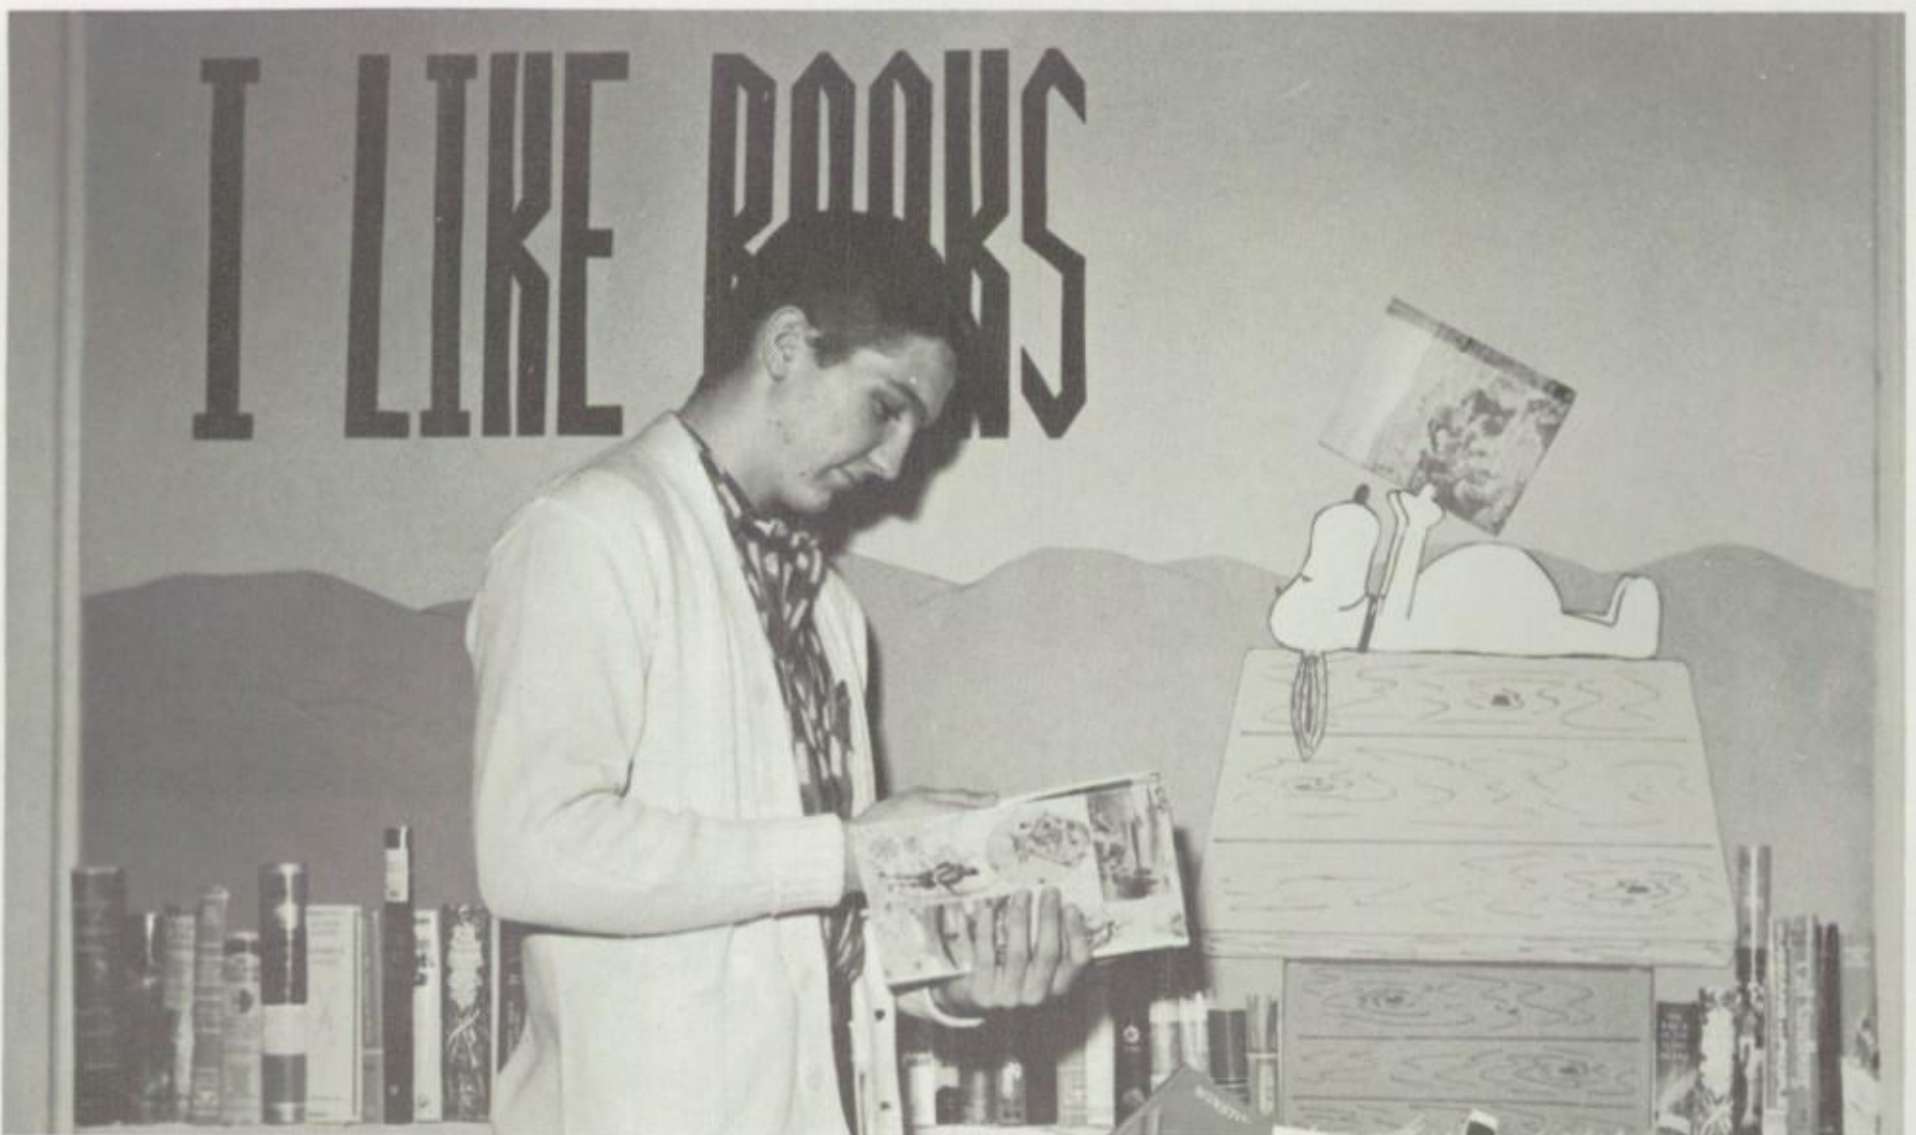

Monika Schaaf writes some Spanish words on the board as her Spanish class looks on.

LIBRARY

These listening posts have been bought so that students may listen to records without disturbing anyone else. Bill and Joanne seem to be enjoying this record.

The library is the laboratory for all subjects in the curriculum. Here the students have access to books and magazines for use in class work as well as recreational reading. Following the "standards" as set forth by the American Library Association, the Enka High School Library has become a Materials Center. It is a source for all instructional material---books, pamphlets, projectors, films, filmstrips, record players, records, tape recorders, etc. In general the library is a beehive of activity and a popular place with the students.

Ronald Morgan has been doing bulletin boards for the library as part of his library work. This bulletin board is patterned after the National Book Week Theme.

Mrs. Warren assists Eddie in filling out his college application.

G U I D A N C E

The Guidance Department in Enka High School is playing an important role in the daily lives of the students. Proper guidance in preparing for and choosing a vocation, during this age of technology, cannot be over-emphasized. This department, under the head of Mrs. Florence Elam, is primarily concerned with testing services, financial aid for students, scholarships, and college information. The guidance room is equipped with numerous pamphlets, brochures, and catalogues with information concerning various academic and technical schools of higher learning. With the help of the Guidance Department, the students of Enka are directed toward a future which is right for them as individuals.

Mrs. Elam talks with Jerry, Carole, and Betty about the importance of the College Board Exam.

The Social Studies department prepares the students of Enka to preserve our American Heritage. Through the study of the world and its civilization we learn to appreciate our own culture, and to avoid repeating man's past mistakes. Social studies prepare us to improve our society by showing us the way to become active, concerned participants in our own government. Awareness of the history-making events which occur during our lives, is emphasized in the social studies department.

Jerry and Susie seem to be amused at Dennis' knight taken straight from the pages of medieval history.

SOCIAL STUDIES

Joanne, Chippy and Wanda are preparing a history scene in chalk.

Rometta, Polk, and Aretha demonstrate a method of distillation.

Ralph and Janet experiment with changes in velocity with a constant force using new P.S.S.C. Physics equipment.

SCIENCE

Elaine and Gary demonstrate the proper way to dissect a frog while Charles and Gary watch.

Comprehension of scientific material and encouragement of independent thought among students are some of the main objectives of the science department at Enka High School. Enka feels extremely fortunate to have a modern science department well-equipped to prepare students for college or scientific careers. The study of science is becoming increasingly important in today's world, and the science department of Enka strives to grow along with modern progress. This year advancement has been made for the department by the addition of a new science laboratory.

Near the middle of the year, new labs were completed in rooms 98 and 100.

MATHEMATICS

There are many reasons why the Mathematics department is one of the most popular departments at Enka High School. The story of mathematics presents a challenge for students to discover new things; its simplicity and logical structure appeals to individuals with a sense of organization. The mathematics department strives not only to teach numerical facts, but it also hopes to promote orderly thinking and the ability to reason. These are qualities which will be assets to students in all other phases of their lives.

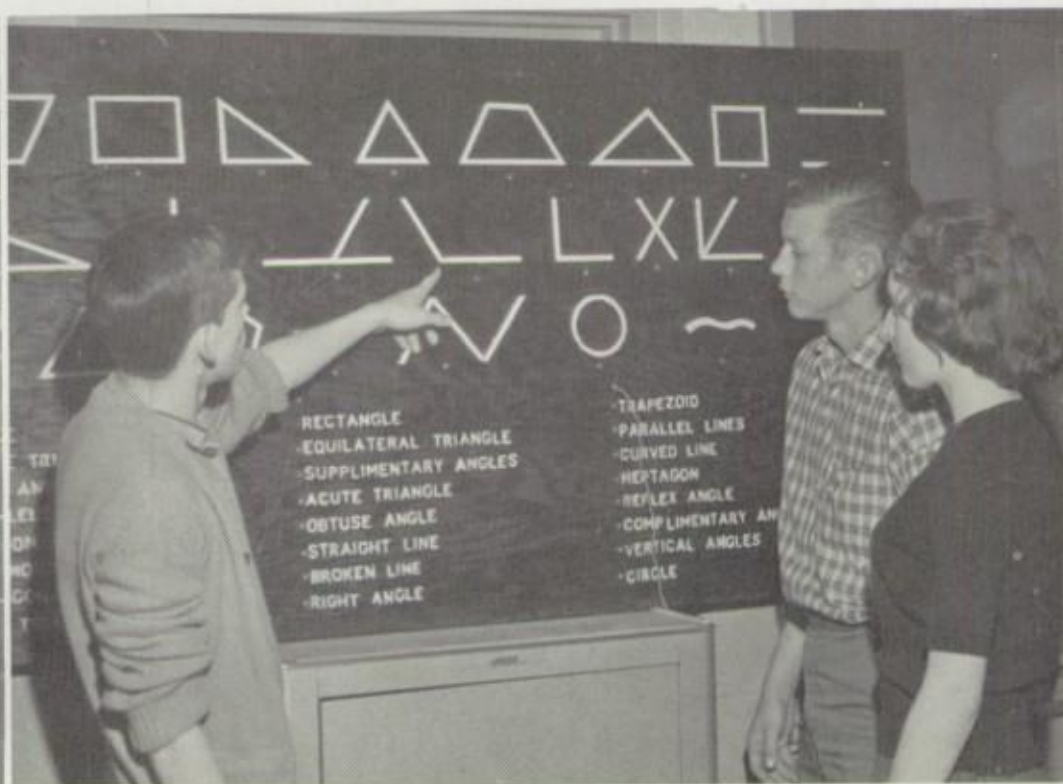

Ralph, Aretha, Rometta, Jerry and James practice using the slide rule in trigonometry class.

Steve has finally made David and Loretta believe that all triangles are isosceles.

Iva June and Shirley make an itemized list with costs.

LeRoy, Pat, and Jack make use of an electric board of plane figures.

BUSINESS EDUCATION

The Business Education Department at Enka High School acquaints students with the use of machines and equipment to prepare them for careers in business. It seeks to develop those qualities among students which will help them toward success in business and economic life. Enka recognizes the fact that skills in certain areas of business education, such as typing, have become increasingly important for success in today's world. The Business Education Department strives to make available these courses to all students, not only those majoring in business.

Typing is necessary to all business students. Here, students from each typing class are shown as they type an exercise for speed.

Dan seems to be a good shorthand teacher. At least he has captured everyone's attention.

Ronnie points out the different business processes used in selling a car.

Miss Atkins teaches the proper way to type a business letter.

HOME ECONOMICS

Courses in home economics are offered to girls who are planning a career in this field as well as those who, as future homemakers, are interested in the knowledge and skills to be gained from the study of home economics. Students actually learn by doing in the well-equipped home economics labs of Enka High School. Home Economics is an elective; however, many girls take one or more courses during their high school years.

Joanne Ball, Barbara Harrell, and Gail Lindsay seem very absorbed in pin-basting their blouses.

Nancy Bennett and Belinda Waldrup measure carefully for their cake.

Miss Beam passes out groceries for the preparation of the lab dinners.

INDUSTRIAL ARTS

Ronald Green and Lawrence Henson demonstrate the use of the plane.

Industrial Arts Education provides those students interested in industrial employment with an opportunity to study shop work and design and to develop an understanding industrial processes. Intensive training is given in use of tools, machines, and materials. With increased emphasis on industrialization, this department continues to expand its facilities to meet the practical needs of the students.

Ronnie Swann demonstrates his prowess in mechanical drawing to Ronald Clement.

Jack Williams signs out some tools to David Warren.

Robert Ballard and Harley Medford demonstrate the use of the welder.

No longer can the field of agriculture be represented by the mule and plow, nor can it be applied only to the farm. Modern scientific advancement has found increasing application in agriculture. Today's expert in agriculture must be skilled in biological sciences, chemistry, agricultural engineering, business management, and animal production, processing, and marketing. Yet the agriculture program at Enka High School seeks to help participants become skilled in the practical application to farming by giving them actual experience.

AGRICULTURE

These boys must be finding something interesting down in that tractor.

Charles Morse and Joe Wells clean a limespreader to get it ready for use.

Mr. Penland and Bruce Massie look on suspiciously as Mary Phillips prepares to start the car.

DRIVER TRAINING

The Driver's Education course seeks to train students to be prepared for any emergency that they may meet while operating a vehicle on public highways. Mr. Penland, the driver instructor, tries to instill into the students proper respect for traffic regulations, emphasizing that driver skill plus good judgment are prerequisites to safe driving. The increasing number of students requesting drivers training confirms the need for practical training in a performance that directly affects the lives of the entire population.

Mr. Penland shows two of his driver training students what to do in case the horn gets stuck.

The School band, under the direction of Mr. Ralph Middleton, has provided much school spirit during the year by playing at all pep rallies and football games. The band also participated in the Apple Festival Parade at Hendersonville, Homecoming Day at Western Carolina College, and the Christmas Parade at Asheville. A Hominy Valley Band Clinic, with all feeder schools in the area participating, was held at Enka in February. A very integral part of the band's life is the State High School Band Contest, held this year at Marion, and the Spring Concert, which is enjoyed by all. This year, too, the band is giving concerts in the surrounding schools.

Jimmy Singleton, Kenneth Singleton, and Bill Gudger were chosen for the All-State Clinic Band at Cullowhee.

The band's saxophone section is composed of, first row: Judy Stubbs, Mary Myers, Mary Long, Sally Clark; second row: Jerry Singleton, Gordon Revis, Stuart English, and Ralph Burrell.

DIVERSIFIED OCCUPATION

The Diversified Occupations program seeks to co-ordinate knowledge gained in the class-room with practical work experience. It offers the students an opportunity to apply that which they have learned in academic studies to jobs under real working conditions. This program aims to teach through actual experience, thus complementing the students course of study with actual encounter with work. Students participating in this program attend morning classes and afternoons are spent working at a chosen occupation which will benefit their vocational plans after graduation from high school.

Gwen Penland studies all morning and pulls teeth all evening at Dr. Cole's office.

Officers of the D.O. Club are: Charles Thompson, president; Larry Taylor, vice president; Fred Kirkpatrick, secretary; and Cora Jane Luther, treasurer.

Paul Worley is finishing a chest at his part-time job.

PHYSICAL EDUCATION

Part of physical education for the girls includes volleyball, which gives exercise while it teaches teamwork.

A well-rounded physical education program for all the students is the objective of the Physical Education Department at Enka High School. The development of mind and body cannot be carried out separately. Therefore, emphasis is placed on intramural sports as well as competitive athletics. Physical education is required of all freshmen and includes studies of health and first aid.

Exercises are used to get these freshman boys in good shape.

All together now, 1, 2, 3, 4.

Tumbling is a part of physical education which everyone enjoys.

CLASS SONG

The time now has come

For us to depart,

The memories of Enka

Remain in our hearts.

The years have been happy,

But how fast they flew;

And now as we stand here

Our dreams have come true.

At last we are seniors

We look back with sadness;

The gay Junior-Senior.....

Our parties were grand,

We remember the good times

And our hearts fill with gladness,

But we now must look forward

As our futures demand.

We will never forget you,

Though the years lead us on;

So goodbye, Enka High School

Our home for so long.

Remember those cold football nights?

Eek! What happened at the junior party?

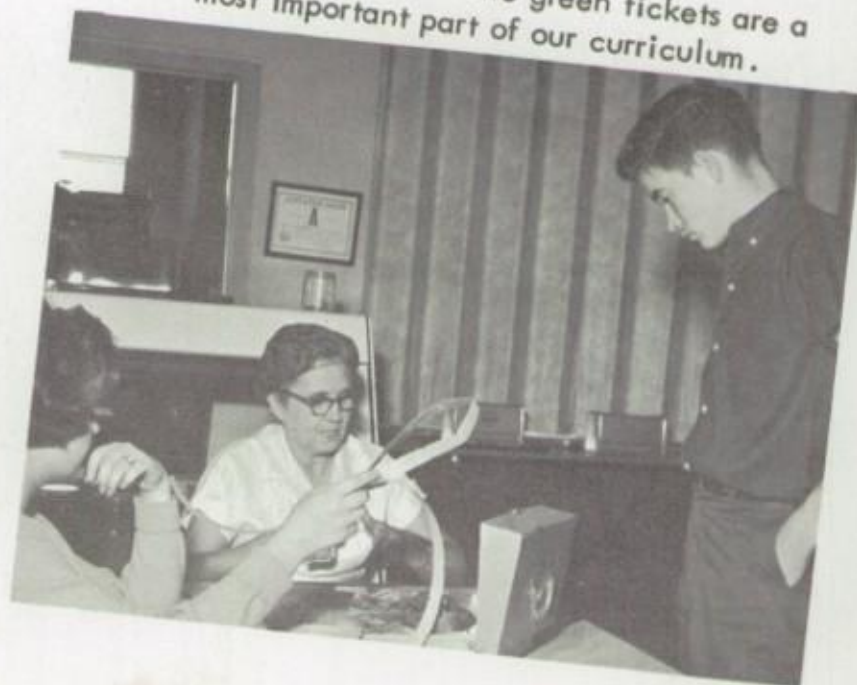

Another important part of the school year has been the addition of the football bleachers. Mr. Tomberlin and Martha must be trying to decide how many there are.

The thermometer wouldn't hold all the money the juniors made this year on magazine sales.

Mrs. Sams and her little green tickets are a most important part of our curriculum.

We offer you with pride the 1963 Enkanoca. We give to you a picture which will capture all phases of a year of your life at Enka High School. We present a record of all the fun you have had, the friends you have made, the parties and dances, the ball-games, and the classes you have attended, to refresh your memory for years to come. LIBRARY CLUB

Trula is Vice-President of the state organization. Candy and Patsy are President and Vice-President, respectively, of the Western District.

The Enka High School Library Club corresponds to the Friends of the Library in public library circles. It is a service and public relations organization. The members have an opportunity to develop leadership by working with other students and serving their school. This is done through a variety of activities other than the usual ones of helping at the circulation desk, etc. One Saturday morning the members participated in a wholesale cleaning operation--floors were mopped, windows were cleaned, the entire library was vacuumed. As an additional service to the students the clubs provided paperback editions of the "better" books which are on sale in the library. During the past five years the library club has been represented on the Executive Board of North Carolina High School Library Association by having one or more members elected to office. The ultimate aim of the club is to stimulate student interest in the library.

David,
It's been great -
that really sums it up
very well. He's had a lot
of fun, especially on the election. He's
worked, especially on the election. He's
was all a bunch of fun. You're a very brilliant
person and a dear friend. Everyone else will say
good luck, so may I be a non-conformist and say you
need no luck - you have all the ability - But may God guide
you in decisions.

David,
Good luck next
year and in your
future life. May
the best be yours.
Give them hell in
football next year.
Love,

don't always agree
with you I think
you are a brilliant

succeed in all that
you do. Remember me
twenty years from
now when you are
a millionaire or some
thing. Good luck
in all that you want
to do for the school
next year - it needs it
improvement and I know
you can do it.
Lots of love,
Lynda

Dear Dave,
I hope that she has
benefited you in some
way. I hope that
some of my intelligence
has rubbed off on you.
What the hell am I
talking about? David, I
won't forget all of the
grand times we've had
these past year. I have
really enjoyed it. The
Beach, races, etc. & women,
all yours... pissed me off.
